**Summary/Action Minutes**

**I. Federal Legislative Update – CJ Lake**

The House and Senate are both in session this week before the Memorial Day recess next week.

**Appropriations**

Subcommittees in the House have completed mark-ups on several appropriations bills, including Commerce, Justice, and Science; Defense; Interior-Environment; and Energy and Water Development. Full committee mark-ups of these bills should be completed this week.

The House CJS bill includes an increase in Census Bureau funding above FY19 and above the FY20 budget request, but also includes a rider specifically blocking the use of the citizenship question on the 2020 Census form. The House CJS bill also includes an increase in funding for the COPS program.

**Budget**

Speaker Pelosi, House Minority Leader Kevin McCarthy, Senate Majority Leader Mitch McConnell, and Senate Minority Leader Schumer will meet this week to begin negotiations on a two-year deal to lift stiff budget caps. They will meet with senior White House officials to plot a path forward to avoid a continuing resolution or a government shutdown when the September 30th deadline passes.

**DREAM Act**

The House judiciary committee will be marking up H.R. 6 on Wednesday. H.R. 6 is a package of the Dream Act of 2019 and the American Promise Act of 2019. Minor traffic offenses and expunged convictions have been excluded from the felony and misdemeanor bars to Dream Act status.

**Infrastructure**

Speaker Pelosi, Senate Minority Leader Schumer, and Republican leaders will meet with President Trump on Wednesday to discuss their proposed \$2 trillion infrastructure package. The President would likely need to endorse a revenue source to fund such an infrastructure package, such as an increase in the gas tax.

**Climate Hearings**

There are two scheduled climate change related hearings this week. Tomorrow at 10:00am, the House Science Committee's Subcommittee on Investigations and Oversight will hold a hearing on preparing America's infrastructure for climate change. On Thursday, the House Select Committee on the Climate Crisis will hold a hearing on creating a climate resilient America.

**II. State Legislative Update – Political Solutions****Budget**

Budget Sub Committees are working to close out items and determine what will go to Budget Conference committee in the next two weeks. Additionally, the Legislature is working towards the House of Origin deadline of May 31<sup>st</sup>, so both houses will be meeting on the floor every day for the next two weeks as they attempt to get their bills to the other house.

**Suspense File Hearings**

Last Thursday, both the Senate and Assembly Appropriations Committees held hearings to dispense with their respective Suspense Files. Bills on the Suspense Files either passed out of committee, were made into 2-year bills, or held in committee – meaning they are no longer eligible to move through the legislative process.
