## Summary/Action Minutes

### I. Waiver Update

Michelle Love, Director, Children & Family Services, Social Services Agency and Stacey Wooten, Acting Deputy Chief Probation Officer, Juvenile Division presented a PowerPoint presentation on the Title IV E Waiver.

The Title IV-E Waiver began in July 2007, with a five year agreement between the Federal, State, and County governments and captures the Federal/State money that would otherwise be lost to the system due to declining caseloads. The Waiver redirects this money to improve services for:

- Families at risk of entering the child welfare system;
- Children and families in the process of reuniting;
- Reduce the needs to place children in care
- Youth emancipating from the system.
- Initial waiver was continued for two “bridge” years while a new agreement was negotiated with the Federal government.
- 

An extension of the original waiver began on October 1, 2014 and the California Department of Social Services received approval from the Federal Department of Health & Human Services to extend the Waiver through September 30, 2019. There are nine (9) participating counties: cohort 1: Alameda & Los Angeles cohort 2: Butte, Lake, Sacramento, San Diego, San Francisco, Santa Clara, and Sonoma Counties.

#### **New Waiver Objectives**

- Improve the array of services and supports available to children, youth and families involved in the child welfare and juvenile probation systems;
- Engage families through a more individualized casework approach, that emphasizes family involvement;
- Increase child safety without an over-reliance on out-of-home care;
- Improve permanency outcomes and timelines;
- Improve child and family well-being; and
- Decrease recidivism and delinquency for youth on probation.

There are additional meetings held with community groups and legal advocates.

In addition, other the Agency continues to work on other challenges, including unanticipated volume of enrollments, hiring delays due to space constraints, and client frustration due to backlog other issues.

Open enrollment has been extended to April 30, 2015, and the agency has collaborated with multiple clinics and schools to outreach to all eligible.
