Process and Evaluation Workgroup Purpose and Objectives

The Process and Evaluation Workgroup was created by the Alameda County Community Corrections Partnership (CCPEC) to assist with the implementation of Public Safety Realignment services and responsibilities defined in Assembly Bill 109 (AB 109) and Assembly Bill 117 (AB 117) passed by the State Legislature in 2011.

The Workgroup provides a public space for interested parties to gather information from a variety of sources to assess, critique and recommend modifications to the County's AB 109 programs and practices. Designed to foster transparency, meetings are open to the public, interested stakeholders, community-based organizations and Alameda County staff. The Public Defender Chairs the Workgroup which meets regularly and adheres to the Brown Act.
