CCP's Overarching Goals

Reduce Recidivism

To **promote community safety and improve the quality of life** for all people in the community by reducing recidivism defined as "re-arrest, re-conviction, or return to incarceration/custody for people with conviction histories, with or without a new sentence within three years."

Coordinated System of Services

Develop an **effective, culturally responsive, well-coordinated system of services** that promotes **evidenced-based practices** with and **for those impacted by reentry**, including reentry individuals, their families, victims, and our community.

Effective and Supportive Transitions

Ensure **effective and supportive transitions from detention to the community and after termination of supervision** by emphasizing and enhancing transition with high quality, comprehensive, wrap-around services from first point of contact through the successful transition off of supervision.

Transparent Public Protection

Ensure **transparency and accountability** through outcome-based **evaluations** based on evidentiary practices and a **supporting information system** that has the ability to track individual services, provider and system outcomes and collect appropriate data/statistics.

Goals Reached

Community Input

We've established process to ensure the community's voice is at the table to help determine what is needed, what is working and what we can do better.

CORE

First conceptualized in 2012, our current community CORE model is a client-centered one-stop reentry center that offers its members a single location to connect with service providers, get support, enjoy healthy activities and build community.

Services & Supports

Our government partners & CBOs have provided the Realignment community with a continuum of free services and supports. The CCPEC provided over \$200M to support the work of local community providers serving the Realignment community.

Fiscal Transparency

Probation ensures fiscal transparency with all of the funding it manages on behalf of the CCPEC by providing detailed monthly reports to the public, which are available on our website.

SMARTIE OBJECTIVES

S

STRATEGIC

Reflects an important dimension of what your subcommittee seeks to accomplish

M

MEASURABLE

Standards by which reasonable people can agree on whether the goal has been met. How will you measure progress?

A

AMBITIOUS

Challenging enough that achievement would mean significant progress

R

REALISTIC

Must be possible /worth the effort

T

TIME-BOUND

Includes a clear deadline

I

INCLUSIVE

Brings traditionally marginalized people – particularly those most impacted – into the process, and shares power

E

EQUITABLE

Seeks to address systematic injustice, inequity or oppression
